

Roo_Parse

This program was created to make tax returns easier and facilitate gathering of data so riders can see what the effects of changes in the algorithms are having on hourly rate over time.

Usage

1. Select a folder containing the invoices you wish to parse, it should then show the file path at the bottom of the window.
2. Click run to extract the data from the pdfs to csv files.
3. Select the folder you wish to save a zip file containing the csv files in, it should then show the file path at the bottom of the window.
4. Click save. This will overwrite any folder called "data.zip" in the directory you selected.

To Do

- Write up read me properly
- Make sure correct date is parsed consistently
- Adjustments df
- Settle on a format for data
- Finish GUI
 - Add help
 - Add about - info, contact etc
 - Add license and warnings etc
 - dark mode?
- Create Column for file name of invoice
- Fix bug with dates, alternating dashes and slashes for some reason

Done

- Change format of date
- Merge summary dataframes by date
- Parse drops, fee adjustments and summary to pandas df
- Zip CSVs for emailing
